

AMENDMENT

IN THE SPECIFICATION:

Please amend paragraph 28 as follows:

Preferably, the grilling structures 22a and 22b are obliquely oriented at an angle of A° from the vertical Y direction (i.e., up and down in Figures 1 and 2). In one example, the angle A is 5°. However, it is to be understood that other angles A are possible. Additionally, the grilling structures 22a and 22b have substantially the same length.
